Topics for discussion

- High level timeline for 4th National Action Plan (NAP4)
- Draft design and outcome for 2 July workshop
- Draft agenda for 2 July workshop
- [Material provided](#)

Notes

- High level timeline, now out to mid-2022, shared and noted
- Discussion re design process:
 - Amplification of process needed – i.e. to raise profile and raise visibility
 - Extra time from shifting cohorts is an opportunity for a deeper process
 - Need to be able to demonstrate decisions made in partnership
 - Agencies should work with individuals
 - Some principles around decision-making are needed as commitments are shaped (late 2021)
 - Consideration should be made of wider open government eco-system beyond OGP, and the principle and values of the Public Service Act
 - Good planning needed to get most out of EAP, civil society networks and to push agencies to be ambitious and think outside the box
